

Website Project Discovery Questionnaire

Completed for: *Libertad Chey Ltd*

1. Company Profile & Core Identity

Company Overview	Libertad Chey Ltd is a boutique risk and audit consultancy founded by Uchechukwu (Uche) Maduka, ACA, CIA, ISO 31000 Certified Risk Manager. The firm specialises in process audits, financial audits, and risk management advisory. Our core mission is to help organisations identify gaps and loopholes in their processes before these weaknesses ever reach the financial statements, and to ensure full compliance with applicable regulations (e.g., CAMA and sector-specific rules). We go beyond surface-level financial risk to examine the root causes: people, processes, and controls.
Target Audience	Libertad Chey serves all organisations regardless of size, sector, or geography including startups, SMEs, NGOs, churches, and large corporates. Clients share a common need: to understand where their processes are breaking down and to get ahead of risk before it becomes a financial or reputational problem. We serve clients in Nigeria and internationally.
Top Competitors	General consultancy and audit firms (boutique and mid-tier) operating in Nigeria and internationally. The key differentiator is that most competitors focus on extracting fees rather than genuinely investing in client outcomes.
Unique Value Proposition (UVP)	Libertad Chey is founder-led, meaning every engagement is handled personally by a seasoned professional with Big 4 experience and multiple certifications (CIA, ACA, ISO 31000). We go beyond compliance to uncover the root of operational and process risk. Clients receive genuine care, deep expertise, and actionable outcomes, not templated reports.
Brand Tone & Voice	Warm, personal, and approachable, but credible and authoritative. Not stiff like a Big 4 firm, but professional enough to command confidence. Conversational, direct, and human.

2. Services & Business Model

Core Offerings	1. Process Audits: identifying gaps, loopholes, and control weaknesses in operational processes. 2. Financial Audits: IFRS-compliant financial examination and reporting. 3. Risk Management Advisory: designing internal control frameworks, risk assessments, and mitigation strategies. 4. Compliance Advisory: ensuring clients meet applicable regulatory requirements. 5. Policy & SOP Development: building governance structures and embedding risk management into daily operations. 6. Blog & Downloadable Resources: practical tips and insights to help businesses self-identify risk.
Primary Website Goal	To serve as a credible, professional online presence giving prospective clients confidence in Libertad Chey's expertise. The primary action is to book a consultation call. Secondary actions: submitting an enquiry, reading blog posts/tips, and signing up for the newsletter.
Pricing Structure	Project-based pricing, determined after an initial consultation. Pricing is not displayed on the website. Visitors are directed to book a call or submit an enquiry for a tailored quote. No dynamic pricing calculator is required.

3. Design System & Visual Assets

Existing Brand Guidelines	Logo: Provided. A purple shield with gold "LC" moniker and "LIBERTAD CHEY" wordmark in purple and gold. Brand Colours: Deep purple (approx. #5B0F8C) and gold (approx. #B8960C). Typography: To be confirmed by developer based on logo style. No formal brand book; the logo file is the primary brand reference.
---------------------------	--

Visual Inspiration	To be provided by client. Style direction: professional, corporate, and polished but with warmth and personality. Premium without being cold or impersonal. References from boutique consultancy and advisory firm websites preferred.
Media & High-Quality Imagery	Professional headshot of the founder (Uche Maduka) is available and provided. No team or fleet photography required. Stock imagery may be sourced to complement the site where needed.
Content & Copywriting	The founder's CV is available and will inform the About/Profile page. Blog posts and downloadable tips will be written by the client after launch. Homepage and services copy will need to be drafted. A professional profile write-up and a 'Why Work With Me' section are required.

4. Technical Requirements & Integrations

Domain & Hosting Status	No domain has been purchased yet. The developer is expected to advise on and set up domain registration and web hosting. Cost to be borne by the client.
Third-Party Integrations	1. Calendly (or equivalent): for booking consultation calls directly from the website. 2. Email newsletter tool (e.g., Mailchimp or equivalent): so visitors can subscribe to receive updates and blog content. 3. Contact/Enquiry Form: for general inbound leads. 4. Basic Analytics: e.g., Google Analytics.
User Roles & Architecture	No user authentication or client portals required at this stage. Single public-facing website only.
Content Management (CMS)	Yes. The client requires a CMS backend to independently publish and update blog posts, tips, and other content after launch. Developer should implement a user-friendly CMS (e.g., WordPress, Webflow CMS, or equivalent).

5. Project Logistics & Client Responsibilities

The following standard engagement guidelines have been reviewed and are acknowledged by the client:

- **Scope of Work:** Features outside the finalized scope agreed upon after this questionnaire will impact both the budget and delivery timeline.
- **Content & Asset Collection:** Delays in providing necessary high-resolution logos, copy, images, or third-party API credentials will directly push back the target launch date. Logo and founder headshot have already been provided.
- **Post-Launch Maintenance:** Upon deployment, the client may opt for a monthly retainer structure for server maintenance, security updates, and performance optimizations, or receive full administrative hand-off.
